# FOREWORD

In compiling this catalog, we have endeavored to list a line of plumbing supplies and specialties that adapt themselves particularly to the plumbing field. We have made a sincere effort to service our trade with quality plumbing materials that are of guaranteed quality. Every item listed in this catalog is guaranteed and we will make replacement on any that prove to be defective either through workmanship or material.

Possession of this catalog does not in any way obligate us to sell that individual inasmuch as our policy is to sell 100% WHOLESALE.

Terms: 2% cash discount, F.O.B. Chicago.

Free delivery in Chicago and surrounding suburbs within a radius of twenty-five miles.

We thank you for the consideration extended to us in the past and hope to have the privilege of your continued patronage.

## "SPEEDY" ADJUSTABLE DRUM TRAP COVER

Patent applied for.

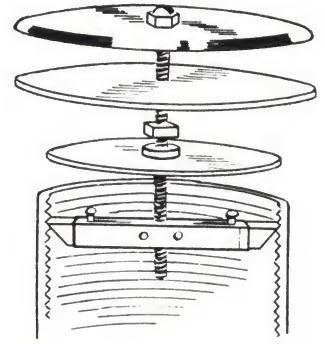

### STYLE "A"

This cover fits practically any size of drum trap. The prongs are held securely against the thread by means of the compression spring. Furnished with chrome plated cover, rubber washer and bolt. A very handy and practical cover which fits most types of thread.

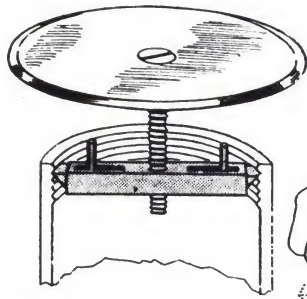

### STYLE "B"

Same as Style "A" except that it is furnished with additional steel plate and washer that will adapt to drum traps which are below the floor level. 3" Bolt has running thread which can be adjusted to length required.

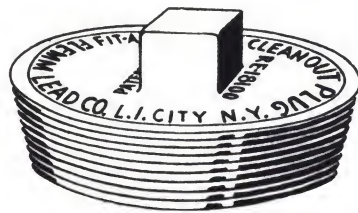

Price No. 2701

STYLE "B"

## Pat. Applied for No. 100 "CHICAGO" RESEATING SET

This popular reseating set reseats practically any type of compression fixture made. This set is packed in a lock-tight metal box which keeps the tools in position when carried about. The "Chicago" Reseating Set is nationally advertised and accepted by plumbers and engineers as being the finest tool of its kind on the market. Fixtures can be reseated in a few minutes time without removing them from their regular position.

## SYLPHON REGULATORS

**No. 620 REGULATOR**

For Hot Water Boilers and Tank Heaters. This regulator is designed for automatically controlling the dampers of house heating water boilers, tank heaters and garbage burners. With standard weights and lever bar, this regulator can be set to operate at any water temperature between 120° and 200° F. Furnished with 1"x4" nipple. 5" high (less nipple) x 3" diameter. List price, \$10.00.

Price No. 4101

**No. 610 REGULATOR**

For low pressure steam boilers. This regulator is designed for steam work where low pressures are used or on dampers that are not properly balanced. This regulator can be set to operate on any desired pressure between 6 oz. and 3 lbs. gauge pressure. Pressure up to 5 lbs. can be obtained by using extra weights. Dimensions: 6" high; 6½" diameter. Tapped for 1" I.P.S. List price, \$12.00.

Price No. 4103

REGULATORS  
FURNISHED  
COMPLETE  
WITH WEIGHTS,  
ROD, PULLEY,

AND CABLE.

**Syphon Bellows**  
(Cut Open)

Every regulator contains as its expansion member this all metal bellows. It is the most durable, flexible and sensitive expansion member known.

WEIGHTS EXTRA  
LEVER BAR EXTRA  
Price No. 4104

**No. 600 REGULATOR**

For regulating steam pressure on house-heating systems. This all steel constructed regulator has a 1 piece rocker feature which makes it practically frictionless. With standard weights and lever bar, this regulator can be set to operate at any desired pressure between 12 oz. and 5 lbs. gauge pressure. Pressures up to 10 lbs. can be controlled by using extra weights. Dimensions: 5" high — 5" diameter. List price, \$9.00.

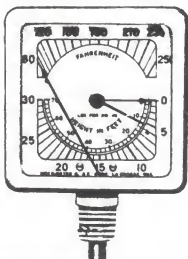

Price No. 4102

**No. 45 1½"**  
**No. 45A 2"**

For hot water boilers and tank heaters. These regulators are especially recommended for automatically controlling the dampers of house heating water boilers and tank heaters where conditions permit the bulb of the regulator being screwed directly into the circulating line. Dimensions: 6" high — 3" diameter. List price, \$18.00.

## "Gloria" BATHROOM FIXTURES

Made of solid brass chromium plated.

Simply line up the fixtures as you desire them placed on the wall. Fasten them to wall with wood screws. Slip escutcheon plate over prong and fasten escutcheon plate by means of set screw.

These fixtures are easily applied on wood, tile or plaster walls. Templates are furnished with towel bars, shelves, paper holder and combination grab bar so as to simplify installation.

These fixtures will harmonize with any color scheme in bathroom because they are finished in durable chrome.
